Visited Parts of This City and County Yesterday Afternoon

Yesterday afternoon about 3 o'clock certain parts of this city and county was visited by a terrific wind and hail storm, accompanied by a slight rain-fall.

The big poster fence adjoining the ball park in the East End was blown down. A colored man passing at the time made a narrow escape from being caught by the huge fence that would have crushed the life out of him.

In Washington and other neighborhoods hail covered the ground a quarter of an inch deep.

Altogether it was some blow and hail for fearful April.

## WOMAN'S VANITY

They were talking about the vanity of woman, and one of the few ladies present undertook a defense. "Of course," said she "I admit that women are vain and men are not. Why" she added, with a glance around, "the necktie of the handsomest man in the room is even now up the back of his collar," and she smiled, for every man present put his hand up to the back of his neck. That proves it. We, being men, are no exceptions. What we are VAIN of, however, is this: Being able to offer.
